

# CONTRACT MANAGEMENT CENTER

Gain Increased Visibility and Control Over Your  
Active Contracts

Dynamic Systems' **Contract Management Center** (CMC) is a powerful cloud service tool. It allows you to consolidate and manage all of your IT service and support contracts for multiple vendors in one place.

CMC makes it easy for you to:

### **Save Time and Money**

CMC simplifies the incredibly time-consuming and labor-intensive task of monitoring and managing multiple service contracts. CMC provides the tools you need to quickly coordinate multi-vendor contract data, view payment history, and even apply credits to new purchases. This makes the management of multiple service contracts, alongside control of IT budget, easier than ever.

### **Increase Visibility and Control**

With CMC, you improve visibility and control over your network, hardware, and software assets across the enterprise. CMC not only consolidates and manages all of your support contracts and warranty information with one click, but also lets you track IT assets online. This gives you an accurate picture of what you have, where it's located, and when service needs to be renewed or extended.

### **Improve Risk Profile**

CMC's automated emails help you monitor service warranties and contract terms to minimize risk and ensure compliance. This way, you can be confident that you'll never miss a renewal date. It has customizable fields that lets you capture and track information specific to your organization – from crucial components down to the serial number. Additionally, CMC allows you to generate and download detailed reports into spreadsheets for seamless, worry-free audits.

## KEY BENEFITS

- Simplified yet structured contract management
- Proactively identify areas of overlap or inefficiency
- Ensure compliance with regulations, terms, and conditions
- Efficiently manage IT costs and changes
- Get a single point-of-contact for all your IT service and support contracts

## IT'S TIME FOR A CHANGE

If your team still uses locally-stored spreadsheets or filing cabinets and puts contracts out of sight and out of mind, it's time for a change. It is difficult to keep on top of heterogeneous computing environments – let alone monitor renewal dates, shifting service level agreements, and unique support methodologies, and build multiple procurement relationships. Dynamic Systems understands these challenges, which is why we designed CMC.

Dynamic Systems' CMC allows you to store all of your service agreements in a secure online repository. This cloud service is accessible anytime, anywhere, allowing for enhanced visibility, control, and collaboration.

## WHY DYNAMIC SYSTEMS?

Dynamic Systems provides technology solutions that make data management simple. We work closely with our clients to understand current challenges, long-term goals, and budget requirements – then combine best-in-class hardware, software, services, and support to streamline maintenance and optimize performance.

Since 1991, Dynamic Systems has built a solid reputation as the IT experts of choice with a relentless focus on customer satisfaction and a strong understanding of our clients' core requirements. Our cleared resources, financing options, and contract vehicles make it very easy to work with us, particularly for our government and education customers. With enterprise-class resources, partnerships, and state-of-the-art facilities, we provide IT consulting, product advice, and training you need to succeed.

## CMC AT A GLANCE

Dynamic Systems' Contract Management Center (CMC) tool simplifies contract management, streamlines procurement, and provides useful reports. It also sends email reminders about upcoming contract events, so renewal dates are never missed.

With CMC, you can:

- Organize all of your service contract and contact information
- View and manage support contract details for multiple vendors
- Track IT assets as they are added, deleted, moved or changed
- Manage budgets and cash credits for decommissioned systems
- View payment history and apply credits to new purchases
- Coordinate data on older systems for technology refresh
- Generate and download detailed reports into spreadsheets for compliance and audits
- Customize fields to capture information specific to your organization
- Access comprehensive maintenance support for an extensive array of manufacturers including Oracle, Fujitsu, IBM, HP, EMC, NetApp, Dell, Intel, Microsoft, Apple, Hitachi, Spectra Logic, Quantum, Cisco and hundreds more
